“ George was a good man who loved sharing his stories of Colorado. He was so proud of his military service and attending reunions with his fellows. He was a handyman who loved making whirligigs and hanging them up along his love of model planes. George could always be counted on to adapt things that would be useful to others and enjoyed making something new out of the old. His old friends at Marions Phillips will miss him.

“ George was a terrific husband and father with a great love of life. I remember him and his love of auto mechanics. No matter what the job entailed, he could always manage to find what it took to get an automobile going. He could always cut a great joke and had a laugh that I will always remember. If you didn't know where to find him, he could usually be found under an automobile doing repair work. He had a great family and a wife that was a great cook. His 4 beautiful daughters were a real joy to him and his son and I were the best of friends many years ago. Time has caused me to lose touch over the years, but I have never forgotten his family and I have and always will hold a special place in my heart for them. My deepest sympathy at his passing and my thoughts and prayers are with him and the family he has left behind.
